Missing scenario Arthur.zip

I was looking at a snapshot of a website on the Internet Archive that used to host a large listing of Warlords 2 scenarios (web.archive.org/web/20041228153619/http:...ar/scenarios/deluxe/). Most of them are on the Heeters site, but at least one is missing: Arthur.zip. Does anyone know anything about this scenario? Does anyone have a copy of it?
