Battle HQ

Posted by Dravaal - 03 Feb 2012 08:52

_____

"Logon Error: Invalid Logon attempt"

Every time I try to log in to that hateful program it gives me that error. I tried with my old account, then created a new account, neither of which work.

I seem to recall always having difficulty with the program, any ideas? The forum for BHQ is even quieter than this one.

_____

Yeah, have reinstalled and on multiple machines, get the same error every time.
