Etherian Names for Hero Name List

Posted by Slayer of Cliffracers - 02 Feb 2013 21:12

I am trying to compile a list of names of Etheria characters for use as the basis to expand the default hero name lists for the appropriate races (I have already made a Fey name list from scratch). I want people to add in as many names of characters that they can remember. This is my present list.

Lord Oberon; Warlords III, Silvermyr Elf

Aravein; Warlords IV, Dark Elf (unknown?)

Minos; Warlords Battlecry I, Guardian Knight

Grak; Warlords III, Orc of Kor

Grakkhard; Warlords III, Orc of Kor

Alaric; Warlords III, Thallasian

Khalen; Warlords III, Dwarf

Traag; Warlords III, Thallasian

Karen; Warlords III, Thallasian

Bortzoz; Warlords III, Thallasian

Albion; Warlords III, Sirian Knight

Jhardel; Warlords III, Garden Undead

Delermat; Warlords III, Banite Undead

Ehyrynth; Warlords III, Banite Undead

Frellen; Warlords III, Banite Undead

Greymane; Warlords III, Banite Undead

_____

There's also king Thallas himself. And Prince Lewis. Theodric is the name of the old king of Thallasia. Thallasia seems seems to have a mixture of old english and slavic names and some names (like Traag) which appear to be new.

I've now compiled the name list and am working on the compliation of the actual hero name lists as such. I've decided to split the elf name list into High Elf, Dark Elf and neutral names. The names which are considered neutral are names that are not assosiated with key figures for either side.

Today I'm starting working on the Orcs, having completed the Gnolls yesterday. I think I'll only have to create the following lists.

Gnolls

Orcs

Undead

Dwarves

Gnomes

Halflings

Demons

If I work hard on it then probably I'll have gotten it done this weekend, leaving me free to complete my campaign by the end of next week.

I have finished the hero name list. Here are most of the names for the list. You will be seeing these name lists in the campaign when it is finished (which will be soon hopefully).
