_____

Register on the site, then go and click on a warlord you want to challenge (red blinking crossed swords icon to the left of the player's name) and then click the challenge button at the bottom. A mail with your challenge will be sendt to that player and he will send you a reply with his armyset. You will then set up the game and mail the first turn to him. Feel free to challenge me if you want to do some testing.

_____

havent been to the forum for long

so it seems we have to have a guide on a PBEM games and PGS creation..
