Moving campaign from old computer to new

Posted by Zeph - 20 Aug 2012 04:39

Does anyone have any idea how to get a campaign to a new computer? I recently built one about half way through a campaign in Warlords IV. You know when you're done with each mission the game auto deletes all saved games so I can't grab one of those. I see nothing in the camapaign folders either.

Out of a bit of frustration I simply copied the entire game directory to the new computer (after I had already installed it there) and I still dont have the campaign.

If anyoe knows could ya post here please?

Thanks.

Zeph,

The campaign progress is stored in your hero file. So just copy that over (in the heroes folder) and you should have all your progress.

Thanks... I'll give that a shot.
