Sounds effects Stop unexpectedly

Posted by Kain - 23 Apr 2020 01:30

_____

Hi.

First i want to thanks you for the wonderful community you created around all warlords games.

Personally i'm really grateful to play again to warlords DLR because of you guys.

I need to ask a technical question to the community on the forum:

I installed BATZ cracked version in Vm workstation .

The game work perfectly but i keep getting a bug that make all Sound effect in the game to stop .unexpectedly

(i'm aware that no soundtrack works because the music file are located on original CD ROM).

Am i the only one experiencing this kind of problems ?

Thanks,

Samuel.
