problems installing 1.05 patch on Windows 7

Posted by leawelter - 29 Apr 2011 10:46

I can not get the 1.05 patch to install on windows 7, does anyone have any suggestions on how to fix this problem????

Thanks for the help.

Leawelter,

I take it that you have the Direct2Drive version of the game?

Check out this article I wrote for how to deal with that.

www.warlorders.com/warlords4/technical-support/war4-install-d2d

I deleted all your duplicate posts. I also answered this question at infinite-interactive.

I decided, years after its realease, to give warlords 4, which I didnt like at all, another chance - seeing there is that patch and all. But what I got delivered was the german version, no chance to patch. Will maybe give it another try in 10 years again.

_____

Zorro,

You can patch the German version.

The link I gave above has instructions on how to do that too.
