Warlords IV Demo

Posted by KGB - 13 Feb 2011 10:56

Does anyone still have the Warlords IV demo installed?

I wanted to grab the scenario map from that demo and place it in the downloads section because it was a well balanced 4 player map with a custom event.

I'm pretty sure it's one of the Campaign maps. Don't remember which one, though...

I don't recall it being there. I played 80% of the maps on the campaign and it wasn't any of them.

I know a couple of years ago a player asked for that scenario map and described it and I told him what he described it was in the demo and he went there to got it again.

If it was in the campaign I am sure he would not have asked.

I can go install the demo (available online in many places) but I was hoping someone already had it installed so I didn't have to download and install it just to get the map.

You start in the south, and there's a strong Dragon city on the northern tip of your "continent". I'm quite sure it's the same as the Demo, or very similar. The next time I play this map in the Campaign I'll let you know and we can compare them.

Zorro,

Posted it today along with your 2 DLR scenario's.

Seppuccu, take a look at Dragonguard Keep in the downloads section. I don't think this is part of the campaign as I didn't see this map anywhere in my campaign list.
