The long-awaited package from faraway America has finally arrived (exactly on Halloween) 🍂

Do comrade Warlords have any interest in seeing W3 DLR Official Strategy guide by Prima Games scanned and presented here?

M0d3M,

Congrats on the PhD.

Also glad to hear you are going to resurrect your Darklord's Lair site. Looking forward to seeing it again.

I also have a lot of old archived information on the game (tips, strategy guides, write ups done by players etc) from all the years of Warlords, Dancing Thief, Katana's Man's, Mod3M, Granite Golem etc.

99% of it is not posted on this site because it would take forever to put it up in some kind of useful format. If you are looking for something specific let me know because I may already have a copy of it.

Flagris,

I was considering springing for the ROH or DLR official guide to see if there's any background in there about how the AI works, which units it selects for stacks, etc. I don't suppose you ever got around to scanning it?

KGB,

If you put what you have in a .zip and upload it, I'd be happy to look through it, clean it up and post the content on the forums here.

I have multiple zip archives. You want me to email them to you?

No, no time and good will to scan it yet, sorry. And yes, it does have some useful info about AI routine and game mechanics.
