

## DLR scenarios

Hello there warlords, love to see the website and forum still around 🍷

I've recently got DLR from gog when it finally appeared there and started regathering all the community created content for it but there's a couple scenarios I can't get anymore sadly:

- one is the updated Illuria map that was on The Wizard's Isle site, Illuria v.4 ( unfortunately wayback machine doesn't have that link archived )

- the other is the Divine Right scenario, which I try to get from the link here on warlords, however it's pointing at Myth v.5 instead

If anyone still has those and can make them available that would be lovely. Let the war begin again 🍷

I have the Divine Right scenario. It's multiple parts which is why it never got posted on the website because I never figured out how best to do it. Drop me an email using the link on the main page and I'll email then parts and an explanation to you.

As for Illuria V4, I may have that one too in all the stuff I have archived but not posted. Do you know what the differences were so I'd know for sure?

Thanks very much, I'll send an email 🙏

For Illuria I think the easiest way would be to check the hero sets, the modified version is using some K4Heroes instead of the regular ones

alternatively, here's a changelog for v.4 : [web.archive.org/web/20140901094325/http://...batty10/version4.htm](http://web.archive.org/web/20140901094325/http://...batty10/version4.htm)
